2DPLUS2026 - ANNUAL MEETING 2026 OF THE GDR 2D+

La prochaine conférence annuelle du GDR 2D+ se tiendra du 28 septembre au 2 octobre 2026 à Lyon. La conférence est co-organisée par le GEMaC.

Du 28 septembre au 2 octobre 2026 à Lyon

» 30 juin 2026 : Date limite de soumission des résumés

Domaine de Lyon Saint Joseph, près de Lyon (France)

The annual meeting of the GDR 2D+ (successor to HOWDI) **will take place from 28 September to 2 October at the domaine de Lyon Saint Joseph near Lyon (France).**

The French and international community working on van der Waals materials is invited to this important gathering. All topics related to these materials and their heterostructures will be covered: growth and synthesis, characterisation, electronic transport, optical properties, spin properties, moiré physics, correlated states… This year, a particular emphasis will be placed on topics related to boron nitride material.

The colloquium will consist in a full week of presentation and exchange (from Monday afternoon to Friday lunch) in full pension with accommodation directly in the conference centre.

!! Abstract submission is open until 30 June
