

E-MRS FALL 2022 : ULTRA-WIDE BANDGAP SEMICONDUCTORS SYMPOSIUM

The 2022 E-MRS Fall Meeting and Exhibit will be held from September 19 to 21 (exhibition) and September 19 to 22 (technical sessions), in Warsaw University of Technology. One of the 17 symposia is coorganized by E. Chikoidze, engineer at GEMaC Laboratory, and will focus on Ultra wide-band-gap semiconductors for energy and electronics. Call for proposals is open until June 6, 2022.

From 19 to 22 september 2022, in Warsaw
(Poland)

Important dates:

- » June 6th, 2022: Abstract submission deadline
- » July 11th, 2022: Abstract acceptance
- » September 12th, 2022: Online inscription and payment deadline

**In Warsaw University of Technology
(Poland)**

Ultra-wide Bandgap Semiconductors (UWBG) is an important class of materials that are used (or envisaged to be used) in variety of applications, specifically related to the energy and electronics sectors. The present symposium, which we wish to make to a bi-annual EMRS event, will serve as a platform for communicating newest results in this booming field.
