PROJECTS AND INTERNATIONAL RELATIONS OFFICE

The main mission of the UVSQ International Relations Office is to provide support to students, faculty, and staff.

For Faculty and Staff:

International experiences are not just for students. We are pleased to offer several options for faculty and staff who would like to take part in (short) experiences abroad through the Erasmus program. UVSQ also welcomes a number of visiting faculty through Erasmus each year.

If you are a UVSQ faculty or staff member and wish to explore this possibility, or are coming to UVSQ through a similar program, contact:

Emilia Tavares-Semedo

If you are interested in setting up an exchange program with UVSQ or renewing an existing agreement, please email agreements@uvsq.fr

For Students:

The International Relations Office is responsible for advising international students on issues such as orientation, housing and studying at UVSQ. The service also supports the university's international activities more generally, and provides information on opportunities and funding for UVSQ students wishing to study abroad.
